

5 Risks Worth Taking

www.marybethkohart.com

1. Swing the Bat.

You've got to swing the bat to stay in the game. You've got to develop the habit of "massive action." Action is the ONLY thing that moves you forward.

2. Implement Quickly.

Don't sit on ideas, to do's, or other actions required to deliver the results you desire. If you don't implement quickly, somebody else will.

3. Forget Security.

Security should never depend upon outside things and circumstances; security comes from within. Developing a great set of business skills brings security. The ability to make money in any circumstance or economy brings security..

4. Stay Away From Negative People.

Negativity is contagious! Surround yourself with other like-minded people who share your same enthusiasm for getting ahead.

5. Fail Forward.

Fail your way to Success! Adopt the good enough isn't good enough policy. It's far better to implement, take action, and hit a few snags along the way then not to try at all. FAIL FORWARD!

Start out by choosing one of the above strategies. Get comfortable with it and then take another and then another. Your results will be nothing short of remarkable!
